## Projects

COACHING PROFESSIONAL WEBSITE - using Tailwind CSS

Frontend | Web Design

Fully responsive website made using frontend framework "Tailwind CSS" & Alpine JS. It was a part of personal project. Check the live website deployed on [Github Pages](#).

PERSONAL PORTFOLIO WEBSITE - using HTML CSS JS

Frontend | Responsive Design

Fully responsive website made only using HTML CSS & JS no frameworks used. It is a part of personal project showcasing my designing & development portfolio. Check the live website deployed on [Github Pages](#).

ECO GRAIL GREEN BLOCKCHAIN - Web Development

UI UX | Illustration Design

The first eco friendly de-fi project supporting Greenblockchain infrastructure and framework for ecoproject, startups, micro, small and medium size enterprise for all formal and informal sectors. This was a part of a freelance project in collaboration with a developer. I worked on designing the UI & the developer made the website live using React. Check live website on [ecograil.io](#)

Behance

Check out my complete portfolio on [Behance](#) focused on visuals & branding.
